

## The easy way to continue to make profit on retail sales during the lockdown.... and beyond if you like the system.

Its really simple, you just need this tailored web link to the **JANSSEN COSMETICS** online shop, and your unique customer number.

For all orders placed by customers who register via this unique link, you will receive 30% commission. You don't need to buy the stock, or pack the order, or deliver the products – we do all that for you! You will automatically receive email updates on when your customers are ordering, which products they are ordering, and how much commission you are going to receive. Commission will be paid to you on the 30<sup>th</sup> of each month.

For example, if your customer number is  
**123456**

Then the link you share is:

<https://www.janssen-cosmetics.com?pid=123456>

If you do not know your customer number – please contact us any time by phone or email and we can help you.

The link can be sent to your clients by email, WhatsApp or social media. If you have a website you can also list it as a link.

### **IMPORTANT:**

It is also recommended that you ask your clients to also put the name of your business in the comment box when placing the order. If your clients have previously registered with the online shop then unfortunately the link will not work, so please remind them to use the comment box to mention your business name.

If you have any questions, please contact us!
