- **Ideal additional care for more toned skin**
- **Care concentrate in a light emulsion**
- **Visibly improves the skin structure and firmness**
- **Radiant complexion with enhanced luminosity ensures a fresh, youthful appearance**

Age Perfecting Serum

ANTI-AGEING SERUM TO COMPLEMENT YOUR DAILY SKIN CARE

Age Perfecting Serum, with its Cellular Regeneration Complex, is the ideal supplement to the MATURE SKIN skin care creams. The highly-concentrated serum strengthens their effects and ensures firmer skin and soothing suppleness every day.

The high-performance active ingredients of the Cellular Regeneration Complex – called CRC for short – ensure a comprehensive regeneration of mature skin and strengthen the skin's structure. Red clover extract has been shown to reduce wrinkles, tighten the skin and moisturise. Kombucha, a multi-active ingredient from fermented black tea, improves the radiance. Recent studies show that Kombucha can stimulate the development and maturation of the fat cells in the skin and thus acts as a natural lipo-filling.

In addition, short and long-chain hyaluronic acid provides intensive moisture and makes the complexion appear instantly plumper. Vitamins C and E protect the skin from cell-damaging free radicals and help to prevent premature skin ageing caused by light. In combination with plant stem cells from the alpine rose, the skin is optimally protected against environmental stress.

For fast and visible results, the serum should be combined with your regular care routine in the morning and evening.

Home care application

In the mornings and evenings, apply Age Perfecting Serum to the cleansed skin of the face and décolleté. You can then apply your usual care cream over it.

***Tip:** Age Perfecting Serum can be applied right up to the eyes before the usual eye contour care.*

ACTIVE SUBSTANCES

- **CRC (Cellular Regeneration Complex):**
 - **Red Clover Extract:** Rich in isoflavones, reduces creases, firms the skin, moisturises
 - **Kombucha:** Fermented black tea, smooths the skin thanks to the lipo-filling effect, improves radiance and gives a rosier complexion
- **Long and Short-Chained Hyaluronic Acid:** Moisturising and binding. Ideal for mature skin which is showing traces of small creases
- **Vitamin E - Acetate:** Becomes free vitamin E in the skin and neutralises damaging free radicals
- **Vitamin C - Phosphate:** Stabilises vitamin C, acts as an antioxidant, supports the effect of vitamin E and the new formation of collagen
- **Plant Stem Cells from the Alpine Rose:** Strengthen the skin and make it more resistant to environmental stress
